

ARRANGE FOR R. C. MEETING

Utah Chapter to Send
Delegates Here June
14 and 15

Plans for the Utah state convention and conference of the American Red Cross in Ogden, June 14 and 15 have advanced materially during the past week. The meetings will be held at the University club. In the morning and at 2 o'clock each day. The evening meetings will be held in the First Congregational church. It is the intention to have one of the National Red Cross films here that evening. The pictures will be explained by one of the delegates from the National headquarters.

Fred M. Nye is chairman of the entertainment committee. This committee will provide automobiles to take the delegates about the city and if the weather is favorable one of the events may be an evening picnic in the canyon.

Mrs. R. B. Porter is chairman of the reception committee. Mrs. Porter has named as her assistants, some of the women who were prominent in the Red Cross work here during the war. The committee will include Mrs. Ezra C. Rich, Mrs. C. S. Murphy, Mrs. John Moffat, Mrs. Edward I. Rich and other prominent Red Cross women.

Mrs. Vera Frey Beason is planning musical numbers for the conference. Well known local talent will not only provide a musical program for the evening meetings, but two numbers for each of the day meetings.

Miss Nell Holsinger, Utah State Red Cross field secretary, will be in Ogden the first of the month and upon receiving her report of the activities of the county chapters the full program will be tabulated.

The Rev. John Edward Carver is general chairman of the convention. He reports that replies are being received daily telling of the hearty cooperation the county organizations of the state are lending.

COMMUNITIES TO JOIN FORCES

North Ogden and Pleasant
View Combine for
Memorial Day

Memorial day exercises at North Ogden on Tuesday will be conducted at the cemetery, beginning in the afternoon at 2 o'clock. Henry L. Jensen of Pleasant View will deliver the Memorial day oration, the two communities combining for the occasion.

There will be a number of selections by the North Ogden band which will play appropriate music at all of the veterans' graves.

Miss Bertha Barker and Miss Lottie Randall will sing a duet and a trombone duet will be played by Gilbert Randall and Arlie Campbell. There will also be a number of selections by the North Ogden male quartet, composed of Clarence Barker, Gilbert Randall, Charles W. Ellis and Arthur G. Berrett.

HOOPER TO HONOR G. A. R. TUESDAY

Services will be held over the graves of Civil war veterans in the Hooper cemetery at 10 o'clock Tuesday morning. Memorial day. The program has not yet been completed. Residents of the town donated their services during the last week in cleaning up the cemetery and preparing for the decoration of graves.

BOOK PRAISES OGDEN WRITER

George Wharton James De-
scribes Work of Albert
Whipple Hadley.

Albert Whipple Hadley, of Ogden, former newspaper man, author of "Hadley's Mormon Rhymes," "Yellowstone Rhymes" and other articles and verses gets considerable mention in a new book by George Wharton James, "Utah, the Land of Blossoming Valleys," the title of the work which is gotten out in de luxe form and consists of 371 pages, including scores of fine illustrations.

The author's note sets forth that the book is "the story of Utah's desert wastes, of its huge and fantastic rock formations, and of its fertile gardens in the sheltered valleys; a survey of its rapidly developing industries, an account of the origin, development and beliefs of the Mormon church, and chapters on the flora and fauna, and on the scenic wonders that are a heritage of all Americans."

The author pays high tribute to the influence of the Mormons on irrigation in the United States.

In the chapter devoted to Utah's influence upon literature the author has this to say about Mr. Hadley:

"Among the citizens of Utah of today I find the literary spirit in active operation. One man in particular, Albert Whipple Hadley, though born in 1879 in Minnesota, and a world-wide traveler, came to Utah in 1906 and ever since has kept returning to his first love. He now resides in Ogden. His specialty, it may be said, is Egyptology, and he has the proud record of being the only man to secure photographs of the secret upper chambers of the great pyramid as well as the lower passages and chambers of the second and third pyramids. He firmly believes that Khnum-Ba-Khuf was the real and original builder of the great pyramid and that Cheops came later and endeavored to 'obliterate' his predecessor and then claim that the pyramid was his. He makes an exceedingly strong case."

The author quotes one of Mr. Hadley's poems, "The Cedar Tree's Love," and mentions his "Mormon Rhymes."

DYE TO TALK AT HUNTSVILLE

Memorial Day Ceremonies
at Cemetery; Other
Events to Follow

Samuel G. Dye will be the principal speaker at the Memorial Day exercises that are to be held at the Huntsville cemetery on Tuesday, May 29.

The exercises will begin at 2 o'clock. The ward choir will furnish the vocal selections and the instrumental music is to be furnished by the Huntsville band.

Following the exercises at the cemetery there will be a baseball game between the Huntsville team and the team of Silver Tent No. 1 of the Knights of the Macabees of Ogden. During the evening there is to be a dance.

Notice to Spanish War Veterans

Ladies' auxiliary Memorial service will be held Sunday, 2:30 p. m. May 28. Meet at State Mountain View cemetery. United Spanish War Veterans Memorial services, Decoration Day, May 30. Meet at City hall park 9:30 a. m. for City cemetery services and 2:30 p. m. for Mountain View cemetery services. All Spanish War veterans earnestly requested to be present. Harry A. Young Camp No. 2, United Spanish War Veterans, M. J. Clifford, commander. 7458

GYM DRIVE TO START JUNE 12

Plans for Structure Pre-
sented; to Be Completed
This Year

Under the leadership of Orval W. Adams, chairman of the civic club committee, the committee will begin a drive on June 12 for the purpose of raising \$50,000.

That amount is the quota of the civic organizations of the city toward the building of the Weber Normal college gymnasium, which is to cost \$300,000. The L. D. S. church to donate \$150,000 and the various stakes of Ogden to contribute \$100,000.

The various stakes have practically raised their quota of \$100,000. The plans for the building have been prepared, presented, material alterations have been made so as to provide the best and latest improvements, conveniences and equipment, insuring the maximum capacity, and the plans have been finally accepted.

FOUNDATION LAID.
About one year ago the excavation for the building was completed and the foundation laid.

David O. McKay, president of the Weber Normal college board of education, in discussing the project said that as soon as the \$50,000 is assured bids will be asked for, the contract let and the work of completing the structure started.

BUILT THIS YEAR.
He predicted that the building will be completed within the year. It will be located on Twenty-fifth street near Jefferson avenue.

The building proper will be 84 feet in width and 240 feet in length. All structural parts are to be of reinforced concrete and the exterior faced with brick and terra cotta. Two entrances from the front will lead directly into the main lobby which is to be extended along one side. The terrace will be brick paved and the front lined with large terra cotta vases.

LARGE LOBBY.
On the first floor will be the lobby, 32 feet in length and 34 feet in width which will be entered directly from the street. This space will serve not only as a business office but also as a comfortable lounge room, in which there is to be a large fireplace and a balcony extending the full length of the lobby. Two wide stairs will extend from the main floor of the lobby to the balcony.

In the rear of the lobby will be situated the offices of the institution composed of the administrative offices and the physical director's office. There are to be three classes of locker rooms for men, adults, schools and boys. These are to be completely equipped with lockers and benches and they will also be provided with private dressing rooms.

The plans show that the men's shower room is located directly back of the locker rooms and connects directly with the plunge room. The shower rooms are to be tiled and floored.

STEAM ROOM AND DRYING ROOM.
The steam room is connected to the shower room and will be used in connection with Turkish baths. The drying room will be equipped with air jets to speed up the drying operation.

The plunge room will be two stories in height, 43 feet in width by 32 feet in length. A spectators' balcony will extend along one entire side. The plunge room will be tiled and floored and the walls tiled to a height of seven feet. The plunge proper will be 55 feet by 60 feet, varying in depth from three feet six inches to eight feet, lined with enameled brick and with the latest improvements in drainage, scum tanks, and radiators, etc. This room will be one of the most modern in the west.

Reception rooms, one for the ladies and one for the gentlemen, have been provided on the second floor. These will be used in connection with dances and parties held in the ball room.

A check room opens off the main passage to the ball room. This room will be ample to accommodate the crowds expected in the ball room. The special exercise room will be used for the rowing machine, chest machine, and others not carried in the main gymnasium.

Locker rooms have been provided for the ladies with ample locker facilities, dressing rooms, etc.; also a physical director's room.

The ladies' shower room is located next to the locker rooms. The shower room will be tiled and floored and wainscoted.

The ladies' drying room opens off the shower room and will be provided with air jets which will be used as hair dryers.

THIRD FLOOR.
The ball room is located in the front portion of the third story, and is 84 feet by 32 feet in size, with a balcony overlooking the main gymnasium. The ceiling of the ball room will be arched and coved and decorated with ornamental plaster moldings. It will serve also as an auxiliary gymnasium for the ladies.

MAIN GYMNASIUM.
The gymnasium at the rear of the ball room is 72 feet in width by 100 feet in length, lighted by a large skylight. A running track and spectators' balcony extends clear around the gymnasium. The balcony will be used for viewing the contests on the main gymnasium floor as well as the hand ball contests. The gymnasium will be furnished with the best apparatus and will be thoroughly modern in every particular.

HAND BALL COURTS.
Immediately in rear of the main gymnasium are situated four hand ball courts. These will be 20 feet by 43 feet in size with a ceiling 20 feet in height. These courts will be lighted with skylights as well as with artificial illumination.

The entire building will be mechanically heated and ventilated so that an ample supply of pure, fresh air will be available at all times. All steam and condensation will be continuously withdrawn from the plunge room, shower rooms and locker rooms. The water for the plunge will be mechanically heated and filtered at all times.

MODERN WOODMEN LODGE CELEBRATES

Open meeting for members of the Utah camp No. 999, Modern Woodmen of America, and Royal Neighbors, friends and members of the baseball team, was held Thursday evening. Briefs talks were given by State Deputy Samuel Query and State Physician E. P. Mills. Captain Engleke put the degree team through fancy drills.

Leonard Taylor offered popular songs, and motion pictures were shown through the courtesy of H. E. Skinner, manager of the Alhambra theatre, and S. B. Steck of the Cory theatre.

LATIN AMERICANS NEARER AGREEMENT

WASHINGTON, May 27.—(By the Associated Press.)—A definite basis of negotiation, understood to contemplate a resort to arbitration at last has been formulated by the Chilean-Peruvian conference. As now under discussion the arbitration proposal is said to center upon a settlement of the long standing controversy over article three of the treaty of Ancon, without prejudice to other differences which have come to the surface during the conference conversations.

Prospects that the two delegations would come together on such a proposition appeared to be brightening tonight after the formal conference sessions had been resumed in a short but interesting meeting.

No delegate would go into details but the optimistic tendency of official opinion was apparent on all sides.

One question understood to be still undecided is whether the arbitration shall be a juridical or a political one. The Peruvians are understood to have taken the position that only a court of jurists acting on purely juridical considerations should be entrusted with the decision. The Chilean attitude has not been publicly defined.

WIN GRATITUDE OF GERMAN CHILDREN

BERLIN, May 27.—Millions of German children who suffered from hunger in the war-time and afterward probably will remember the manna-like meals provided for them by the American Quakers long after they have forgotten the name of the American Friends service committee which withdrew from Germany at the end of July after two and one-half years of relief work here.

The budget committee of the reichstag recently approved an appropriation of 50,000,000 marks for the purchase of foodstuffs to continue the child-feeding program when the American supplies have been exhausted. These supplies are now expected to last until September 30.

Dr. Bose, chairman of the German central committee for foreign relief and director of the food ministry, said the government had gratefully accepted the position that for this purpose but the Quaker feeding so strongly gripped the popular mind that some members of the party of the Left demanded a great increase in the federal grant for that purpose.

The Friends organization has been established in 1640 towns which contain about one-half of the entire population of Germany. Its supplies were stored in more than 300 warehouses and its food was prepared in more than 350 feeding places, mostly schools and child-welfare institutions.

The money value of the American food provided has been estimated at \$8,500,000. This amount is less than one-fourth the cost of a first-class battleship, said Francis R. Bacon of Philadelphia, chairman of the Friends committee.

TEN MILLION RUSS TO BE INOCULATED

LONDON, May 27.—A sanitary spring offensive calling for the inoculation of 10,000,000 people against five communicable diseases, has been undertaken by the medical department of the American relief administration in Russia, says a cable reaching the London office.

Typhoid, para-typhoid (A and B), smallpox and cholera, which latter has now begun to appear in several regions, are the epidemics which the A. R. A. hopes to eradicate in this way.

The vaccines are now arriving in Russia and are being distributed to the districts and the assistance of the central government and the local health authorities has been enlisted in order to secure the co-operation of the people themselves.

The A. R. A. is also trying to revive such native sources as that of the laboratory at Roux which was known as "the second Pasteur Institute." This has been practically closed owing to lack of materials and food for the staff. Now, however, the A. R. A. officer in Samara has induced the government to guarantee

DISORDERS ATTEND INDIAN RAIL STRIKE

The A. R. A. is also trying to revive such native sources as that of the laboratory at Roux which was known as "the second Pasteur Institute." This has been practically closed owing to lack of materials and food for the staff. Now, however, the A. R. A. officer in Samara has induced the government to guarantee

water, fuel and forage for animals

needed for experimental purposes. The A. R. A. is giving laboratory supplies and food packages for the personnel.

An educational campaign instituted by the government showing the dangers pictorially of the louse, the mosquito and the fly and the necessity for removing all rubbish and filth, has prepared the way. As many of the people to be inoculated are receiving American rations, this prophylactic offensive is expected to be successful.
